Welcome to Transitional Year Graduate Medical Education at Medical Center of Trinity! We are excited you are interested in our residency program. We have a dynamic and diverse faculty, ideal patient population, a full range of service lines, excellent physical location, and some of the newest technologies available.

The purpose and objective of the Transitional Year (PGY1) is to provide a well-balanced graduate medical educational program, both clinical and didactic, so that you have a strong clinical background to continue your training. Our objective is to provide you a multidisciplinary education on which to base further medical training. Medical Center of Trinity has both a Radiology and Internal Medicine residency on site. TY residents will rotate with internal medicine residents on an inpatient teaching service to provide an excellent educational experience. The rotation schedule can be adapted to suit the needs and interests of the individual resident. Our goal is to nurture a professional academic clinical environment. There are nine months of required rotations. The remaining three months of electives will be selected based on needs of the resident. You will receive exposure to caring for acute and chronic patients in different practice settings.

We are a community hospital located in the Tampa Bay area serving a diverse population of both urban and suburban patients. We are a regional referral center with comprehensive medical services. We appreciate that this internship is an important year where you transition from being a medical student to a knowledgeable resident in advanced training.

As program director, it is my privilege to offer a program that trains compassionate, well-rounded physicians and to prepare each resident for the specialty to which she or he aspires. We are excited that you are interested in our residency program. You will find our environment to be collegial and nurturing while fostering intellectual curiosity.

Sincerely,

**Debra Angelo, MD**  
Program Director

## Our Faculty

**Debra Angelo, MD, PharmD**  
Program Director

- Dr. Angelo graduated from Windsor University (MD) and Nova Southeastern (Pharm D.). She is the Medical Director, Inpatient Medicine and serves as the GME Faculty Research Champion. Dr. Angelo is on the Lab Stewardship Committee for HCA, West Florida Division

**Elbert Barnes, DO**  
Core Faculty

- A graduate of the University of South Florida School of Medicine, Dr. Barnes' career includes Private Practice, serving as Chairman of Medicine and Chief Medical Officer. With extensive participation on Patient Safety and Quality committees, Dr. Barnes is currently a hospitalist at Medical Center of Trinity.

**Claire Zelinkas, DO**  
Core Faculty

- Dr. Zelinkas is a graduate of Lake Erie College of Osteopathic Medicine and completed her residency at Northside Hospital and Tampa Bay Heart Institute. Dr. Zelinkas serves as faculty for the Internal Medicine Residency Program.

## About the Program

Our Transitional Year Program is dedicated to providing the support and resources needed to become an exceptional physician. We focus not only on the clinical exposure to your specialty but on the unique opportunities for personal and professional development built on a strong core of medical knowledge.

Residents will rotate on a 13 block schedule. Each block will consist of 4 weeks. Rotations will include Internal Medicine, Emergency Medicine and Medical Intensive Care Unit. Possible electives include all medical, surgical, and hospital-based specialties as well as anesthesiology, dermatology, neurology, ophthalmology, physical medicine and rehabilitation, radiology, and radiation oncology.

# About HCA Healthcare GME

HCA Healthcare is a comprehensive healthcare network with over 275,000 colleagues across more than 2,000 care facilities all committed to creating a positive impact every day. We continually invest in our colleagues and facilities to better serve our patients and local communities. The Graduate Medical Education (GME) programs seek to inspire tomorrow's physicians to care for and improve human life by focusing on patient-centered approaches to practicing the latest evidence-based medicine.

**To learn more about the benefits and expectations of training with an HCA Healthcare program, view our [Resident and Fellow Manual](#).**

Our residency and fellowship programs are in **59**  
hospitals located in **16** states

- ⊛ Residency or Fellowship Program
- HCA Healthcare Hospital

## Size

HCA Healthcare Graduate Medical Education is the largest sponsor of residency and fellowship programs across the nation.

**4,637**  
residents

**289**  
fellows

**218**  
specialty programs (residencies)

**79**  
sub-specialty programs  
(fellowships)

## Scholarly Activity

HCA Healthcare Graduate Medical Education provides a critical link between vigorous scholarly activity and real-world patient care from a sophisticated data repository of more than 32 million patient encounters each year.

**2,500+** HCA Healthcare GME scholarly activities in 2020-21.

## Clinical Training

Each year approximately five percent of all U.S. hospital services happen at an HCA Healthcare facility, including:

**32+ million** patient encounters  
**7.4 million** emergency room visits  
**215,000+** babies delivered

HCA Healthcare Graduate Medical Education is a leader in clinical experience.

- Nationally known physician expertise across the country
- Investments in facilities allowing the advancement of patient care
- High emphasis on simulation results and low patient incidents
- Higher patient touch than academic facilities
- Annual collaborative mass casualty event team training

# A commitment to scholarly activity

Based on more than 32 million patient encounters each year, our scholarly activity bridges the gap between compelling evidence and exceptional patient care.

Our experiential learning is rooted in evidence-based medicine that leads to innovative, **real-world patient health solutions**.

Merging the rigor of **ACGME** accreditation with high patient touch, our residents and fellows deliver evidence-based care that demonstrates our mission to care for and improve human life.

We offer **National Grand Rounds** that leverage accomplished clinical expertise from across HCA Healthcare, bringing the nation's leading medical experts to our residency and fellowship programs.

#### **Notable Publications**

- *JAMA Internal Medicine*
- *Annals of Surgical Oncology*
- *CHEST Journal*
- *American Journal of Respiratory & Critical Care Medicine*
- *Obstetrics & Gynecology*

#### **Notable Presentations**

- American College of Cardiology
- Society of Critical Care Medicine
- American College of Physicians
- Society of Hospital Medicine
- American College of Surgeons

## **Influential Collaboration**

HCA Healthcare residents and fellows have access to talented, highly skilled teams of faculty, industry experts and dedicated researchers to guide them through their journey. Residents and fellows produce evidence that drives future practice by leveraging HCA Healthcare's national clinical data warehouse – the heart of our data ecosystem.

**HCA Healthcare Scholarly Commons** is a platform to collect, share and publish the variety of academic work created by the Graduate Medical Education community. During 2020, readership of those works eclipsed the 25,000 mark. Included on this platform is the **HCA Healthcare Journal of Medicine**, a peer reviewed scientific periodical focused on innovation, enhanced quality and developing new knowledge in clinical care and medical education for the benefit of all patients. In its first year of publication, the journal disseminated 86 articles in six issues as well as a seventh special issue on the COVID-19 pandemic.

# About HCA Healthcare

HCA Healthcare is one of the nation's leading providers of healthcare services and is comprised of 186 hospitals and more than 2,000 sites of care including surgery centers, freestanding ERs, urgent care centers, diagnostic and imaging centers, walk-in clinics and physician clinics in 20 states and the United Kingdom. With its founding in 1968, Nashville-based HCA Healthcare created a new model for hospital care in the United States.
